

TOILET

TRAINING

Have you ever had an unwanted video suggestion or ad show up when you share a YouTube link with students?

Get a link for the video that **ONLY** displays the video itself with SafeShare.tv

1. Copy the URL of the YouTube video you wish to share.
2. Go to the site: safeshare.tv
3. Paste the YouTube URL in the link field.
4. Click the "Generate Safe Link" button.
5. Click on "Take me to the safe view..."
6. Copy the safe view link to share with students. This will allow viewing of the video without the threat of accidental, unwanted content.

Too much to remember?

All 'Toilet Trainings' & 'Tech Tip Videos' are archived at InstructionalTech101.weebly.com
